

## Flat Face: International Ports

Series: "A" Premier

**Interchange:** ISO 16028

"A" series couplings are in compliance for interchangeability and performance of ISO 16028

**International Ports:** British or German DIN

All features and benefits of "A" Premier series with convenient international port configurations

- Seals: Nitrile & Teflon anti-extrusion
- Eliminate hard to find adapters and leak points
- Nipple: hardened steel reduces brinnelling
- 12 to 20 balls to increase the male bearing points and decrease the brinnelling effect
- Lock system stops unwanted disconnect
- Exceeds impulse test of ISOA-7241 test

**To identify the DIN fitting size, measure the following:**

Using a thread gauge, determine the number of millimeters per thread. With calipers, find the thread diameter by measuring the O.D. on the male and I.D. on the female. Measure the tube O.D. with the calipers so you can identify the fitting as either light series or heavy series.
